

PREPARE FOR SUCCESS - MODULE 7

Shopping list

When setting up your SA units, there's so much to consider, and I have found myself constantly forgetting small but important purchases and repeating mistakes. When scaling and outsourcing, I was forced once and for all to create a master shopping list which I am sharing with you here. This list will obviously vary depending on the size of the property and your target customer avatar. Also, not every room listed will fit all the suggestions I have made but use this list as a guide to providing the best experience for your guests and getting the best reviews as a result.
